9. Date of Birth: _____

C. We will assign a login and password and provide instructions for you to access the course. How you would like to be notified? (Check preference)

Email: _____ Phone: _____

NSC DDC-NY ENROLLMENT CONTRACT

Prior to submitting a registration, the student must agree with the following terms and conditions:

1. The student who registers for the course verifies under penalty of perjury that they alone will take and complete the course without any outside assistance. If it is discovered that the student willfully misrepresented himself, the course will be terminated and the course fee will not be refunded.
2. NO additional fees will be charged. The purchase price of the course is for all services, including, but not limited to technical and customer support, subject matter expert mentoring, mailing of certificate of completion via first class mail, and electronic submission of completion data to the New York State Department of Motor Vehicles. A student is eligible for a full refund if the cancellation request is received prior to course completion. A student is not eligible for a refund if the course has been completed or if the student fails any of the validation requirements.
3. After purchasing the course, the student will be contacted via email (or by phone if paying via check or fax) with their account login information. Instructions will include directions to call 1-888-NYS-ODDC (1-888-697-6332) and leave an initial biometric voiceprint sample to use as verification of their identity throughout the course. At several checkpoints throughout the course, the course will stop and a message will be displayed notifying the student to call 1-888-NYS-ODDC (1-888-697-6332) and leave another voice sample to verify their identity. A verification PIN number will be issued to the student to enter and continue in the course. Two failed attempts to match their initial biometric sample will result in course failure and the course fee may not be refunded. Per the NY DMV regulations, the student's biometric data will be retained for 5 business days after course completion.
4. The course contains an introduction and six sessions of content. The course has been designed to allow the student to take the course in one sitting or multiple visits. If the student exits the course prior to completion, the

student can re-enter the course at the point where they left off. The total minimum amount of time required in the course is 320 minutes.

5. This contract is not a license or sale of NSC software. It provides one-time access to NSC course content, based on the same curriculum as taught in NSC's NYS DMV approved PIRP six-hour classroom course. The online course must be completed within 30 days from the date of purchase.
6. Course completion information will be sent electronically to the Department of Motor Vehicles (DMV) for all students who complete the course within 30 business days. A water-marked National Safety Council DDC-NY Certificate of Completion will also be mailed to the mailing address you provide during course registration within 14 business days.
7. The student agrees that he/she has reviewed all of the system requirements, as well as, the privacy policy information.
8. The student agrees that he/she has reviewed all of the PIRP benefits and limitations as described in the NYS DMV C-32A brochure.
9. The student agrees to accept email notifications from National Safety Council about the DDC course, including renewal reminders.
10. If the student has any questions or concerns, please contact us at 1-800-775-1484 or help@nsconlinetraining.com.
